People who know plastics best

Total Piping Solution

Jeevan bhar ka saath...

OVER **15000** PLASTIC PIPING PRODUCTS
TO CATER TO ALL YOUR PIPING NEEDS

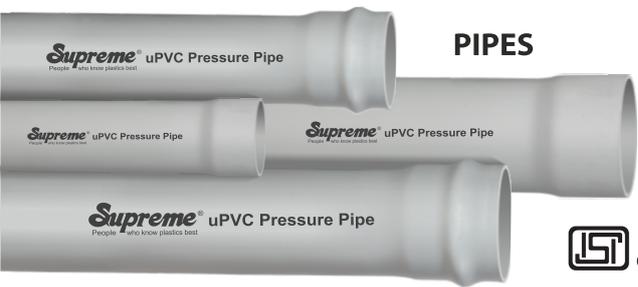

PRICE LIST
W.E.F :- JANUARY, 2026

Since 1942[®]
Supreme
People who know plastics best
Total Piping Solution
Jeevan bhar ka saath...

FEATURES AND BENEFITS

- Strong and reliable
- Odorless and hygienic
- High corrosion resistance
- High chemical resistance
- Smooth bore
- Self extinguishing quality
- Maintenance free
- Economical

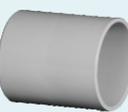

PIPES

FEATURES AND BENEFITS

- Strong and durable
- Improved noise insulation
- Extensive range of pipes and fittings
- Smooth bore- Better flow
- Easy and leak proof joints
- Cost effective
- Light weight compared to CI
- Unique design and elegant appearance
- Chamfered pipe ends
- Corrosion free – longer life beyond 50 year's
- Excellent chemical resistance
- Good fire resistance properties
- Compatible with existing S.W.R. system

Hi-Tech, Low Noise, S.W.R. Drainage System

... A Premium Drainage System for Premium Projects

FEATURES AND BENEFITS

- High quality and wide range
- Quick and efficient removal of waste without leakage
- Strong and longer lasting
- Excellent chemical and corrosion resistance
- UV resistance
- Quick and convenient installation

SWR Pasted Pipe & Fitting

Streamline Pipe
6 mtr (Pasted)

Size	Price
75 mm	908.00
110 mm	1523.00

FEATURES AND BENEFITS

- Quick and efficient removal of waste without leakage
- Excellent chemical and corrosion resistance
- Quick and convenient installation
- UV resistance
- Minimal maintenance
- Cost effective

FEATURES AND BENEFITS

- ▶ High quality and wide range
- ▶ Tough and rigid material
- ▶ Leak proof joints
- ▶ Low thermal expansion
- ▶ Superior insulation properties
- ▶ Fire resistance
- ▶ Maintenance free
- ▶ Highly economical in long run
- ▶ Excellent resistance to corrosion and chemical attacks
- ▶ Most suitable for carrying potable water
- ▶ Light weight, easy and quick assembly

DIVERTERS AND FLUSH VALVE

 **Diverter Body**
Concealed Mixer Diverter Assembly 3/4"
Pkg : 10 RS. : 2900

 **Diverter Plate & Knob (ABS)**
Diverter Wall Flange & Handle 3/4" (ABS)
Pkg : 10 RS. : 790

 **Diverter Plate & Knob (SS)**
Diverter Wall Flange Kit Round (SS)
Pkg : 14 RS. : 1390

 **Diverter Plate & Knob (SS)**
Diverter Wall Flange Kit Rectangle (SS)
Pkg : 14 RS. : 1930

 **Flush Valve**
Flush Valve
Pkg : 12 RS. : 2700

FEATURES AND BENEFITS

- Strong, resilient and long lasting
- Mechanical properties
- Light weight
- Simple and leak proof joints
- Optimum flow rates
- Overall economy
- Piping system integrity
- Maintenance free
- Excellent chemical and corrosion resistant properties
- Most suitable for carrying potable water

PE-AL-PE IS 17544:2022

Coil Length	16mm
200 MTR	30150.00

FEATURES AND BENEFITS

- Long Term Reliable Performance**
- Safe and Most Ideal for Gas Distribution**
- Easy and Quick Installation**
- Flexibility in Design and Installation**
- Maximum Installation Safety**

PE-AL-PE

COMPONENTS OF RAINBOW ROOF GUTTER SYSTEM

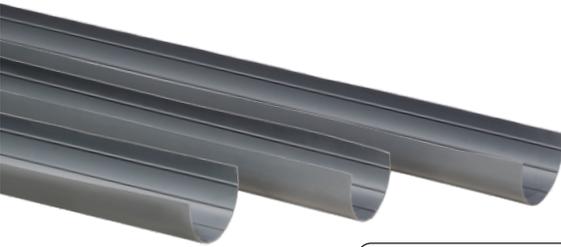

RainGainFilter
Technical Specifications

Sr.No.	Parameter	Raingain Filter 180mm	Raingain Filter 355mm
1	Working principle	Gravity, Centrifugal force and Cohesive force	Gravity, Centrifugal force and Cohesive force
2	Max rainfall intensity	75mm/hr	75mm/hr
3	Suitable for	Up to 2500 ft ² area	Up to 5000 ft ² area
4	Operating pressure	< 2 ft of head	< 2 ft of head
5	Filtration capacity	240 LPM	720 LPM
6	Filter body	HDPE	PE
7	Filter strainer	Stainless steel OR Plastic	Stainless steel
8	Mesh size	250 μ	250 μ
9	Inlet	90mm	200mm
10	Clean water outlet	90mm	200mm
11	Drain outlet	90mm	160mm
12	Efficiency of filter	Approx 90%	Approx 90%

FIELD APPLICATION

Supreme Rainbow roof gutter system is designed for rainwater collection and drain of rainwater. It is also suitable for different applications; some of them are listed below:

- Traditional residential houses
- Large size stores
- Garden shades
- Large size industries
- Large commercial buildings
- Garages

Pipes for Borewell Application

...Most comprehensive range with wide spectrum of fittings

UNIQUE FEATURES

- Excellent corrosion resistant
- Light in weight
- Quick and convenient installation
- Excellent strength and stiffness
- Non-toxic
- Non-conductive
- Longer lasting
- Economical

Hi-Tech, High Tensile, High Strength

Column Pipes for Submersible Pumps

UNIQUE FEATURES

- Long life, Easy & Fast Installation
- Strong and Durable
- High Tensile Load Capacity
- Excellent Corrosion
- High Flow Rate, Cost Effective

FEATURES AND BENEFITS

- High reliability and proven service performance
- Excellent chemical and corrosion resistance
- Excellent flow characteristics
- High impact resistance
- Long service life
- Excellent UV, low temperature and abrasion resistance
- Excellent water hammer resistance
- Excellent weldability
- Wide variety of installation methods
- Easy, quick and economical installation
- Ideal in shifting soil condition and earthquake prone areas

Fields of Application

Polyethylene is an exciting material used for manufacturing of pipes for varied applications as enlisted in the table given below.

APPLICATION	GRADE
Potable water mains, house connections	PE 63, 80 and 100
Rural and agricultural pipes	PE 63 and 80
Column pipes for submersible pumps in coil form	PE 63 and 80
Sprinkler and drip irrigation	PE 63 and above grade
Sewerage/Subsoil drainage	PE 80 and 100
Coal handling in mines	PE 80 and 100
Industrial applications	PE 63, 80 and 100
ID Pipes for submersible pump	PE 63 and 80

Standard dimension ratio (SDR) and corresponding wall thicknesses of pipes as per IS 4984:2016

**Long Neck
Pipe End
(StubEnd)
EF Joint**

**PE Electro-fusion
HDPE Fittings**

FEATURES AND BENEFITS

- Reliable joint performance
- Extremely robust design
- Strong and durable
- Most suitable for conveying gas and Drinking water
- Light in weight
- Rust free hence no encrustation
- High chemical and corrosion resistance
- Compatible with all types of PE pipes
- Easy and fast installation

Nozzle Size (mm)	Pressure (Kg/cm ²)	Diameter (m)	Discharge (LPM)
5.15x3.17	1	24.00	1520
	2	25.00	2170
	3	26.00	2670

FEATURES AND BENEFITS

- Light weight, easy and quick assembly
- Ideal and safest system for carrying potable water
- Safe and watertight joints
- Excellent resistance to corrosion and chemical attacks
- Reduced head loss
- Low thermal conductivity
- Free from scaling
- High impact strength
- Low on sound
- Long operational durability
- Highly economical in long run

SOCKET / POLYFUSION EQUIPMENT AND ACCESSORIES

	Price
Suitable for 20/25&32 mm sizes.	9427.00
Suitable for 20/25/32/40&50mm sizes.	14848.00
Suitable for 63 to 110mm sizes.	15083.00
Suitable for 20 to 32mm sizes.	6938.00
Suitable for butt welding of 90 to 200 mm sizes.	19985.00

	Price
Suitable for SPD 2600, SPD 3800 and SPD 41200	20 808.00 25 978.00 32 1094.00 40 1727.00 50 3066.00 63 3309.00 75 4162.00 90 5988.00 110 8204.00
Suitable for SPD 5600	20 1257.00 25 1537.00 32 1926.00
Used to make hole on pipe while using welding saddles	32 3663.00
Used for weld in saddles	63x32 2665.00 75x32 2875.00 90x32 3195.00 110x40 9674.00 110x50 10035.00
This is used to repair hole formed on the pipe	7 2754.00 11 2754.00

	Price
Suitable up to 40 mm pipe size	1258.00
Suitable for 50 mm to 140 mm pipe sizes	14870.00
This is used to remove oxidized layer on exterior face of the pipe before welding. This is generally required while welding large diameter pipes.	1287.00
This is used to mount Polyfusion device while welding. This provide firm support while welding on the floor.	L/W 1407.00 H/W 1996.00
Required for welding of 63 mm to 110 mm pipe sizes	115768.00
For butt welding of above 110 mm to 200 mm pipe sizes	229540.00

FEATURES AND BENEFITS

- Easy to fix
- Long life due to no metal parts in function
- Spindle can be replaced easily
- Aerators can be cleaned easily
- All taps are of standard 1/2" BSP thread and can be replaced easily
- UV-stabilized, fatigue resistance and having high flexural strength
- Made out of engineering plastics
- No fading of colour, no dust or salt sedimentation
- No moisture effect, like black spots
- Can be used for hot and cold application up to 65°C
- Light in weight
- Cost effective
- Excellent style and finish besides being environmental friendly

...an Ideal pipes for drainage and sewerage application

IS:16098

Unique Features

- Great flexibility • Excellent Stiffness
- Perfect hydraulic properties
- Easy and quick installation
- Watertight joints • Maintenance Free
- Long Life • Cost effective • Eco-friendly

FEATURES AND BENEFITS

- Great strength
- 100% watertight system
- Hygienic and safe
- Minimum excavation cost
- Great flexibility
- Different flow profile designs
- Minimal maintenance
- Perfect hydraulic properties
- Longer life and overall economy

(1800mm invert)				

Installation procedure

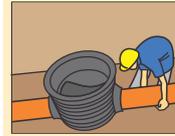

1. Level the bottom of the trench with a suitable bedding material of minimum 10cm (4") depth. Please note that the trench level for the base should be lower than that of the pipe. Place the chamber base on stable foundation.

2. Apply lubricant on the rubber seal and pipe spigot. Make the joint by pushing the base to the pipe spigot.

3. Ensure the correct position of Ultra 600 base on the bedding material by using spirit level.

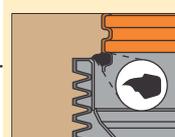

4. Connect the pipes in the required position. The adjustable pipe connector provided with the base enables an angular deflection of 7.5° from the centerline in each direction.

5. Cut the shaft to the required installation depth by using hand saw or electric saw. Cut should be made only on outer rib.

6. Assemble the sealing ring around the shaft between top two ribs.

7. Check if the sealing ring is assembled correctly.

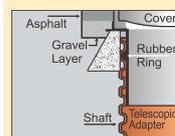

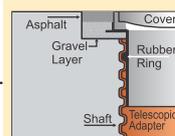

8. Apply lubricant on the inside surface of the base.

9. Push the shaft with sealing ring into the base.

10. Backfilling with granular material should be carried out carefully to assure the material is evenly filled and compacted around the inspection chamber. The degree of compaction should be in accordance with requirements of the construction project with minimum of 95% proctor density. Avoid large sharp stones in direct contact with the inspection chamber. Backfilling should be carried out immediately after placing and fixing the base in position and should continue up to the top level.

Note: In case of 600x200mm 90° bend base, shaft is socketed & hence while connecting shaft, rubber sealing ring should be placed between top two ribs on exterior face of the base.

Price

Ultra® 800

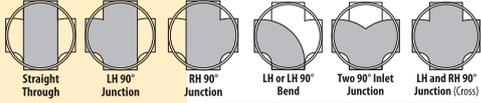

Suitable for 160 to 400mm uPVC/HDPE pipe & 150 to 400mm DWC pipe (Inlet/outlet)

Available invert depths

1150mm	40151.00
1450mm	55576.00
1650mm	65244.00
1750mm	69010.00

Four Layer Water Tank

Size (ltrs)	Dimensions			Price Per / Ltr
	D	H	ID	
500	886	1023	370	16.20
750	1000	1212	370	14.20
1000	1081	1345	370	11.00

FEATURES AND BENEFITS

- 100% Virgin Food Grade Raw Material
- All Weather Resistant
- Completely Safe - Maintains 100% Water Quality
- Free From Algae & Fungus Development
- Robust Four-layer Design For Strength & Structural Integrity
- Copper Infused Technology - Antibacterial & Antiviral
- Sunlight Shielding Due to Double Wall Construction of Cover
- Rotationally moulded for maximum strength and better performance.
- Full capacity guaranteed

Five Layer Water Tank

Size (ltrs)	Dimensions			Price Per / Ltr
	D	H	ID	
500	886	1023	370	19.00
750	1000	1212	370	16.25
1000	1081	1345	370	16.25

FEATURES AND BENEFITS

- Rotationally moulded
- Antibacterial
- Provision of air vent with SS mesh
- Superior thermal insulation
- Assured quality
- Extra strong and durable design
- 100% virgin, food grade raw material
- Readymade base plate for easy installation
- All weather resistance
- Provision of inbuilt hooks
- Strong and sturdy insulated covers with inbuilt locking provision

Five Layer Water Tank

Size (ltrs)	Dimensions			Price Per / Ltr	With Water Level Indicator & Pump Controller
	D	H	ID		
500	886	1023	370	24.80	
750	1000	1212	370	20.70	
1000	1081	1345	370	20.70	

FEATURES AND BENEFITS

- Rotationally moulded
- Antibacterial
- Superior thermal insulation
- Assured quality
- 100% virgin, food grade raw material
- Provision of air vent with SS mesh
- All weather resistance
- Provision of inbuilt hooks
- Strong and sturdy insulated covers with inbuilt locking provision
- Provided with water level indicator and pump controller
